Building Eco-Friendly Outdoor Retreats

Patented Construction

EcoStone Fence is manufactured with a proprietary blend of recycled and virgin polyethylene plastic and is reinforced with galvanized steel in every post and panel.

Eco Friendly

No trees are cut down for the purpose of manufacturing our fence. EcoStone panels and posts use at least 25% recycled polyethylene.

Superior Wind Rating

Certified to withstand constant hurricane force winds up to 110 mph and 130 gusts. Meets Miami Dade County, FL hurricane requirements.

Excellent Sound Barrier

EcoStone blocks 98% of direct sound with an STC value of 26.

Fade Resistant

EcoStone contains UV-12 inhibitors for a lifetime of vibrant color.

Maintenance Free

EcoStone will never need painting or staining. It will not warp, fade, crack or bow. Just install it and enjoy.

Twenty-five Year Warranty

For warranty details visit our website at:
www.simtekfence.com

Available Heights

EcoStone panels come in 3' and 6' heights by 6' width or 4' high by 8' width. Four-foot fence panels have been engineered to allow stacking to create an 8' high wall on 8' centers.

3' High

4' High

6' High

8' High

Engineered Gates

- Gates come in 4' and 6' wide by 6' high.
- Internal steel frame provides an extra rigid structure.
- All hardware mounts "steel-to-steel" for excellent thread engagement.
- 6 foot gates have an internal diagonal steel cable providing extra strength.
- Hinges are spring loaded and made of stainless steel. Latch and drop rods match.

Designer colors to compliment your home and landscape
